S I R :

The undersigned duly authorized official of Sankyo Company, Limited, a corporation organized under the laws of Japan, and having its office in Tokyo, Japan, the Assignee of the entire interest of the above-identified application by virtue of an Assignment recorded on February 6, 2002 in the United States Patent and Trademark Office on Reel 012820, Frame 0089, declares that:

Mouse-mouse hybridoma HFE7A was identified in the above-identified application as being deposited under number FERM BP-5828 (hereinafter referred to as the "deposited material") at the National Institute of Bioscience and Human Technology (located at 1-3, Higashi 1-chome, Tsukuba-shi, Ibaraki-ken, 305-8566 Japan), which is an international depository authority and which affords permanence of deposit and ready accessibility thereto by the public if a United States patent is granted.

(a) Said deposited material was made under the terms of the Budapest Treaty;

(b) Restrictions, if any, on the availability to the public of the deposited material will be irrevocably removed upon the granting of a United States patent.

The undersigned declares that all statements made herein of his own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001, of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
